Allowable Subject Matter

Claims 1-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's argument with regards to the definition of the "holding mode" is persuasive. In view of the foregoing definition and based on all of the subject matter of independent claims 1 and 16, including "a power supply and clock signal control circuit, responsive to a target rate signal indicative of a target rate of data processing operations to be performed by said processing circuit, to modulate a target rate mode control signal to switch said processing circuit between said processing mode and said holding mode so as to achieve said target rate", amended independent claims 1 and 16 now contain subject matter distinguishable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stefan Stoyanov whose telephone number is (571) 272-4236. The examiner can normally be reached on 8:30AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rehana Perveen can be reached on (571) 272-3676.
